19 September 2007

Dear Robert

Julio and I want to express our gratitude for helping to make the process of the purchase for our investment property a smooth one.

All the help and information that you offered to make things happen efficiently, smoothly and with the least inconvenience to us is greatly appreciated.

I particularly appreciate you coming to see me to discuss the contract; twice I might add, as that made it a whole lot easier for me. You were always approachable and contactable.

Your friendly manner and explanation in plain English made it easy to understand what to us seemed like a lot of very complicated paperwork.

Once again; Julio and I thank you so very much for the continued support and look forward to a constant business relationship as we plan the dreams we have for the future.

We look forward to our next venture,

Best regards

Silvia Lopez
